Practical experience updates

The Institute has launched an External Authorised Supervisor scheme to help registered students who are engaged in accounting-related duties but not working under an Authorised Employer (AE) or Authorised Supervisor (AS). The Institute can now assign External Authorised Supervisors to eligible registered students. A total of 113 people have so far agreed to join the Institute's panel of External Authorised Supervisors.

Record keeping

Annual updates for Authorised Employers and Authorised Supervisors are now being processed. AEs and ASs are requested to complete and return the records update form to the Institute.
