

HKICPA/HKBU REVISION COURSE FOR DECEMBER 2010 FINAL EXAMINATION

Objective

This 32-hour revision course, to be offered by the Hong Kong Baptist University (HKBU), is to assist QP candidates to better prepare for the December 2010 final examination. The focus will be placed on improving candidates' analytical skills and techniques in handling questions, rather than going through in details the subject matter of the syllabus. However, the course includes a brief update of knowledge in financial reporting, financial management, auditing and information management, and taxation. Special emphasis will be placed on the special topics because at least 70% of the examination questions will be set based on the special topics.

Course Structure

The revision course consists of **32 hours** covering the following topics:

1. How to handle case questions of financial reporting and a brief update of knowledge in financial reporting (Module A). (12 hours)

3. How to handle case questions of auditing and information management and a brief update of knowledge in auditing and information management (Module C). (8 hours)
4. How to handle case questions of taxation and a brief update of knowledge in taxation (Module D). (8 hours)
